

Our Philosophical Framework

Founding Principles

“Coexistence and Mutual Prosperity” “From Finite Mining to Infinite Industry”

UBE Corporate Philosophy

Pursue technology and embrace innovation to create value for the future and contribute to social progress

Purpose

Leveraging the manufacturing technologies the UBE Group has cultivated throughout its long history, create the value required by society, in the safe and environmentally friendly manner demanded by society, and deliver that value to the people. And by doing so, help to solve global environmental issues, which have become a common issue for all humankind, and contribute to people's lives and health, and an enriched future society.
